Council for Tobacco Research  
900 Third Avenue  
New York, NY 10022

Dear Sir or Madam:

The FHCRC Funding Information Resource exists to assist our research staff in obtaining essential funding in the continuing effort to find the causes and cures for cancer. Please send the most current materials relating to your Biomedical Research Grants Program, including policy statements, application guidelines and forms. Any information on additional award programs available from the Council for Tobacco Research would also be welcome.

Please include a copy of your current Annual Report if available. In addition, can you provide data on the number of current award recipients and the number of applications for support you receive each year? It would also be most helpful to us if you can advise us of the source of your funding.

If your organization maintains a roster of interested parties, please add our name and address so that we may receive regular updates on funding information as changes are made.

Thank you.

Sincerely,

Rose Kowalski, Coordinator  
Funding Information Resource
